Pune (India), May 08, 2023: Birlasoft, a part of the USD 2.8 billion diversified **CK Birla Group**, reported its audited consolidated financial results for the fourth quarter and year ended March 31, 2023.

Mr. Angan Guha, Chief Executive Officer and Managing Director, Birlasoft, said, "We are pleased to report a strong operating quarter with robust revenue and EBITDA margin performances in continuing business. Deal signings during the quarter at \$286 million TCV have been the best during the year under review. The solid fundamentals of our business, the investments being made in enhancing our capabilities, and the momentum with which we are entering the new financial year positions us well to meet the challenges of an increasingly uncertain macro-economic environment and shifts in customer priorities going forward."

"Revenues for the financial year FY'23 have grown 16.1% to Rs 47,948 million, and cash flow from operations were 100% of adjusted EBITDA on the back of sustained focus on collections resulting in best-in-class DSO of 53 days. We have ended the year with a robust balance sheet and believe that a restructured organisation, sharper focus, and disciplined execution should position us well to successfully navigate through the prevalent macroeconomic environment," said **Ms Kamini Shah, Chief Financial Officer**, Birlasoft.
